PROFESSIONAL SUMMARY

Multidisciplinary Designer with expertise in branding, design systems, and user-centered solutions. Currently serving as the Founding Product Designer for a financial app and Lead UI Designer for an AI photo app. Experienced in designing across SaaS, fintech, and healthcare, specializing in modernizing digital platforms and improving usability.

WORK EXPERIENCE

50,000feet — Senior UI Designer

JAN 2024 - PRESENT

Creative consultancy specializing in brand strategy, design systems, and digital experiences for global brands.

- Led UI design and development for two large-scale websites across 3 nations, resulting in a 20% increase in user engagement and a 15% boost in platform conversion rates.
- Designed and implemented a scalable design system for GardaWorld and its child companies, ensuring brand consistency across 10+ platforms and reducing development time by ~30% through reusable components.
- Applied atomic design principles to build modular UI components, reducing design iteration time by 25% and improving collaboration between design and development teams.
- Delivered interactive prototypes to gain stakeholder alignment, reducing project approval timelines by 50% and accelerating delivery of key milestones.

Lulafit — Senior Designer

JUL 2023 - JAN 2024

Corporate wellness and lifestyle management company delivering tailored wellness solutions to workplaces and residential communities.

- Designed cohesive branding and marketing materials, driving a 25% increase in user engagement across digital platforms.
- Developed comprehensive style guides and visual assets to ensure consistency across digital and print collateral, resulting in a 98% brand compliance rate.

20nine — Senior Designer

AUG 2022 - AUG 2023

Branding and creative agency focused on crafting engaging brand identities, digital strategies, and storytelling for diverse industries.

- Led digital design efforts for high-profile fintech, biotech, and SaaS clients, modernizing their branding and web platforms to meet evolving user and business needs.
- Built and implemented modern websites, web platforms, and scalable design systems, successfully transitioning enterprise clients from outdated branding to cohesive, user-centered digital experiences.
- Synthesized and streamlined complex, outdated content and information into intuitive, structured, and user-friendly web solutions, improving usability and comprehension for end users.
